None Has Been Reported in the City Since Sept. 19.

Rugia's Steerage Passengers Taken to Ellis Island This Forencon,

New York, Sept. 27-10 A. M.

Three More Cases Found To-Day. Dr. Byron telegraphed that he had removed three more cholera patents to Swinburne Island from the Bohemia. They are: WILHELM LATZ, 4 years, JOHANNA MILEZARIR, 6 years, CARL GASSMAN, 26 years,

These five cases on the Bohemia make the sotal quarantine record to date as follows:

Startled Quarantine Officials.

This morning's report came with startling abruptness after the report sent to Dr. Jenkins at 5.40 last night from Swinburne Island, which read:

We have had no new cases or suspects since Sept. 20. Our last choiers patients are in full convalescence. The danger of a few days ago is past; and as friends, allow us to congratulate you on your most intelligent discretion and untiring activity, both by night and day during this awful emergency, may his cable which apseds this message to you way his cable which apseds this message to you

The remark was true enough when the Health Officer made it. Even then, however, choleraic cerms were lurking in the Bohemia's old hulk, prepared to selve upon fresh eletims.

Prompt Measures Adopted.

While the Health Officer announced the two new cases this morning with evident re-gret, he was not disheartened. He promptly telegraphed Dr. Byron for full particulars, and at 6.40 sent Dr. Walzer down the bay on the tug Evarts to inspect the patients on the Bohemia as well as the measles patients on the steamboat Stoutpeton.

Because the master of the plague will probably interfere with the proposed transfer of the Bohemia's steerage passengers to Horman Island, as was intended, to-day.

The fresh outbreak of the plague will probably interfere with the proposed transfer of the Bohemia's steerage passengers to Horman Island were to have been transferred to the old frigate New Hampshire to-day, but yesterday's gale caused the receiving ship to drag her anchors nearly a mile and, in view of a possibility of a repetition of this experience, the transfer will probably not be made. The Scandia came to Upper quarantine last night, leaving only the Bohemia and the Polaris in the lower bay.

Dr. Walzer considers it safe to release all the Scandia's passengers to-day, but in view of this morning's developments, it is not likely that this will be done.

Agent R. J. Cortis and Commodore Hebich, of the Hamburg-American line, came down to Quarantine at 11.30. Commodore Hebich, who is commander of the Normannia, said he expected to sail to-morrow forenoon. To-day the ship is coaling.

Dr. Jenkins went down the bay on the Vamoose in company with the Chamber of Commerce's Medical Advisory Board at no m.

The Saale was released from Quarantine at 12.15.

Cabin Passengers Landed. The first cabin passengers is unded.
The first cabin passengers of the Scandia and Hohema arrived at Quarantine at 11.55 this forenoon on the tug Evarts, of the Hamburg-American line, en route for the Company's dock in Hoboken. There are twenty-eight from the Scandia and ten from the Bohemia.

CAMP LOW, SANDY HOOK, Sept. 27.—The departure this morning of the passengers of the Hamburg-American Hos steamer Rugia who have been detained in camp for ten days, afforded a repetition of the scenes which attended the discharge of the Normannia's people last week. The passengers comprised Turks, Arabians, Americans, Greeks and Poles, with a sprinkling of the better class of Germans. They were taken on transport steamers John E. Moore and
